

# Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere?  
[Import a repository.](#)

Owner

Repository name \*

čokoľvek rozumné

Great repository names are short and memorable. Need inspiration? How about **super-fiesta**?

Description (optional)

alebo čokoľvek iné alebo nič

Public ✓

Anyone can see this repository. You choose who can commit.

Private

You choose who can see and commit to this repository.

Skip this step if you're importing an existing repository.

Initialize this repository with a README

This will let you immediately clone the repository to your computer.

Dobrá vec, môžete si napísať čo sa týka vytvárania markdown.

Create repository

Stlačením vytvoríte adresár repozitára, default je pod Documents/GitHub, a tam si môžete skopírovať dáta a začať vkladať kód.
